Entering Marblehead

As you enter Marblehead, watch for the water tower on the right at the top of a rise. About a half-mile past the water tower and shortly after the Marblehead Bank which is on the right, you will pass under a stone conveyor which serves the Marblehead quarry. Just past this conveyor is the Kelleys Island Ferry Boat Line dock to your left. Follow the entrance road around the parking area to the ticket booth at the head of the ferry dock.

Once On the Island

Turn left as you exit the ferry dock parking area and travel about one-quarter mile to the business district (stop sign). Continue through the stop sign and past several commercial establishments to the second private residence on the right, 115 West Lakeshore Road. The house is a large white Queen Ann home with a corner turret. The drive is past the house, not before it.
